From Graham County.

Thomas, July 6.—The Democratic convention at Sedona, yesterday, elected A. M. Franklin and P. J. Bolan as delegates to Phoenix with instructions to vote for Oary.

Report just received from San Carlos state that Charlie Colvig, chief of scouts, and three of his Indian police, were killed this morning while counting the Indians preparatory to leaving the reservation. The killing was done by White Mountain renegades. No further trouble is apprehended. The scouts are in pursuit of the murderers.

The Lordburg Molester.

Londonburg, July 6.—George W. Spratt, the wounded teamster, died this morning at four o'clock. This is the first death in the history of Londonburg. The country is so very healthy that it is absolutely necessary to shoot a man to start a grave yard, yet a doctor has recently located here. It is probably well for the murderers that he is confined in the Silver City Jail instead of at this place.

Naval Matters.

Washington, July 5.—A discussion arose in the House as to the reduction by a quarter of a million of dollars of the amount appropriated with a view to improving the Mississippi. Lobson was strongly opposed to the reduction.

Ellis declared himself heartily in favor of the reconstruction of the navy, for, sooner or later, the Irish question would enter into American politics, and might lead to complications with England. Mexico would, before long, find that she is being peacefully subjugated by the United States. Then would come a revolt and the United States might be called upon to defend the interests and property of Americans in Mexico. He referred to the results of Chile. Atkinson's amendment to reduce the appropriation a quarter of a million was rejected. Harz's amendment that any portion of the thirteen and a quarter millions not required for the purpose specified may be used in the construction of two new cruisers was adopted by 85 to 7.

Liberty to Pay License.

San Francisco, June 5.—Departments One of the Supreme Court rendered an opinion today affirming the judgment of the court below in the case of Los Angeles City vs. the Southern Pacific Railroad Company, an action for the collection of license tax. The opinion concludes as follows: "It, the defendant railroad company, is interested in many public expenditures and may as reasonably be charged local license as may those engaged in other business."

Flight Handlers.

New York, July 5.—The report that the demand of three freight handlers would be complied with this morning proved incorrect. A number of German late ers have been to the new force recently employed by the various railway companies. The freight is being handled with more rapidity. The business, however, is still blocked.

Fire in Boston.

Boston, June 5.—A fire in the dry story block, 41 to 49 Federal street, caused damage of \$20,000; insured. The principal sufferers are Paulier, Jordan & Wilson, Goodwin, Wyman & Co., F. B. Martin & Co; Frederick Wells; Davis & Windsor and Daniel Dunford.

Warehouse Burned.

Cambridge, July 5.—Johnson & Aronson's furniture factory, on Noble street, was burned this afternoon. Loss \$30,000 insured for \$12,000. Several adjoining cottages were burned. Loss about \$40,000.

Damage by Explosion.

Lincoln, Neb., July 5.—A special says: Yesterday, at Geneva, while firing a cannon, one man was killed and seven others slightly wounded by the premature explosion of the piece. Two young ladies, Emma and Sallie Lee aged 18 and 14, were burned by fireworks, and will probably die. Their mother and sister were burned slightly in trying to put out the flames.

Gutten's Body Removed.

Washington, July 5.—The Evening Star states that the body of Gutten was secretly removed from the jail yard Monday night and conveyed to the Army Medical Museum.

Belmont after Blaine.

Washington, July 5.—In the House Belmont attacked Blaine's South American policy today.

The Earps are gone from Tombstone.

But men still die in their boats. Phillips, a deputy sheriff, was shot and killed by a Mexican named Antonio at the door of the corner of Fremont street. The Mexican was making some place named, sent for and Phillips demanded. In at the Mexican, and when moved his pistol, fired seriously wounded him. He had many friends there than probable the night to-night. [Continued.]

The races yesterday attracted quite a large crowd. Pools sold lively and at good figures. Henry Gardias entered his bay Boracho; Al Richeson, bay stallion Sleepy Bill, and J. Craemer's gray horse, Sleepy Bill, second, and the gray third. Betting was lively in favor of Boracho. Shortly after five o'clock the horses were called and a start made. The gray led from the start, winning the race by about two lengths.

Why does our City Council allow the property owners on the main street to pile all their debris in front of their business places. There are several such heaps to be seen on Washington street, and travel is greatly impeded thereby.

The ladies of Phoenix and vicinity will find it to their advantage to examine the stock of Millinery Goods at Rosenthal & Kutzner's, before purchasing elsewhere.

Bob Hamiltons with us again, having arrived last evening from Prescott. On his way down, he stopped at the Tizer, and reports that the water is nearly all pumped out. Had it not been for a breakage of the furnace, the mine would have been pumped dry some time ago. The company have let contracts for 200 feet of sinking, and the mine will start up very shortly.

About half past one o'clock this afternoon, the town was aroused by the startling cry of FIRE from the stentorian lungs of Tom Sherman. Immediately the street, so quiet before, was filled with running and hurrying men, and, on arriving at the scene, the flames were seen raging on a portion of the roof of Herick's blacksmith shop. Some men were already dashing buckets of water on the flames, and in a few moments they were extinguished. Had it not been for Tom's timely alarm, the building must soon have been destroyed. The fire was caused by some matches which were lying on a cot, being ignited by the rays of the sun.

The finest and largest assortment of Bunting, Silks, Satins, Grenadines, etc., ever brought to Arizona, you will find at the Palace of Fashion at Rosenthal & Kutzner's store.

Mr. Goodfellow has commenced his cross cut on the Red Rover at a depth of 125 feet below the surface. The sum of \$100,000 has been deposited in San Francisco to be paid on the 15th of October, or before if a wall of ore is struck by the contractor before that day.

[Communicated.]

Ed. Herald.—It seems that a professional gentleman of the Oscar Wilde type has arrived in Phoenix during the last week, and, unfortunately for us, is not pleased with the inhabitants of this burg. He remarked the other day, that this is a "most hay seed" community (whatever that means) he ever had the misfortune to get into, and that every one was so—unrefined, you know, that it was perfectly preposterous to compare Phoenix to Tucson. We hope this gentleman will succeed in his business. He designs to do amongst us; but, if these are his sentiments, we are harassed with doubts.

Fourth of July Mischap.

Pittsburg, July 4.—The steamer Scotia with an excursion party of 500 persons collided with the John Lemas near Menigo Junction, Ohio. One hundred are reported drowned. The Scotia was coming up the river under a full head of steam. When about half a mile from Menigo Junction, the John Lemas was sighted coming down. The pilot of the Scotia whistled for cannon, but, owing to a misunderstanding, both boats took the same side, the Lemas striking the Scotia and sinking her in fifteen feet of water. In three minutes from the time of the collision, the scene on the Scotia was heart-rending and the life-struggles were frightful to behold. The Lemas was only slightly disabled and went to work at once to save those on board the unfortunate Scotia. This task was rendered easier by the bright moonlight. It is now believed that the first reports were exaggerated and that the loss of life will not exceed twenty persons.

River and Harbor Bill.

Washington, July 5.—The Senate Committee on Commerce nearly finished today the consideration of the river and harbor bill. An amendment was adopted to increase the appropriation for the improvement of the Mississippi river between Cairo and Head of Passes to five million dollars. This added to the House bill one million dollars. One hundred thousand dollars was also added to the House bill for the improvement of the Missouri river. The amendments made by the Senate committee and to the bill as it came from the House about two million dollars, making the amount to be appropriated more than nineteen million dollars.

Quarantined.

San Francisco, July 6.—The British steamship Cairnmuir arrived from Hong Kong with 750 Chinese passengers. No cases of smallpox are reported, but the steamer has been temporarily quarantined.

Murder on the Fourth.

Sacramento, Cal., July 4.—Billy O'Neale, an old resident, was murdered this morning about 4 o'clock, in the old Gam building on I street between 2nd and 3rd. His slayer was a one-legged Indian, who fled the city as soon as the murder was committed, and so far has escaped arrest. O'Neale was killed by being struck on the head with a bludgeon.

Storm in California.

Yreka, California, July 5.—A terrific thunder storm occurred this afternoon, accompanied with heavy hail and rain, seriously damaging the crops. Flies flying were blown from the poles. The streets are flooded with water.

An Extraordinary Offer.

There are a number of persons out of employment in every county—yet energetic men willing to work. Do not need to be. Those willing to work can make from \$100 to \$500 a month clear, working for us in a pleasant and permanent business. The amount our agents make varies, some making as high as \$500 a month, while others make as low as \$100—all depending on the energy of the agent. We have an article of great merit. It should be sold to every house-owner, and pays over 100 per cent profit. Each sale is from \$3.50 to \$10.00. One agent in Pennsylvania sold 23 in two days, and cleared \$84.00. An agent in New York sold \$45.00 in one day. Any man with energy enough to work a full day, and will do this a full year, can make from \$3,000 to \$4,000 a year. We only want one man in each county and to him will give the exclusive sale as long as he continues to work faithfully for us. There is no competition, and nothing like our invention made. Parties having from \$200 to \$1,000 to invest can obtain a General Agency for ten counties or a state. Any one who can make an investment of from \$30 to \$1,000, without the least risk of loss, as our Circulars will show that those investing \$35 after 30 days trial return the goods unsold to us, and get their money back, if they do not clear at least \$100. They show that a General Agent who will take ten counties and invest \$250.00 can after a trial of 90 days return all goods unsold to us, and have money returned, if they fail to clear \$750.00 in that time. We are not paying salaries, but want men willing to work and obtain as they pay the price of their energy. Men not willing to work on our terms will not work on any. Those meaning business will receive our large descriptive circular and an extraordinary offer by enclosing an extra cent stamp, with their address. The first to comply with our terms will secure the county or counties they may wish to work. Address: KENNER MANUFACTURING CO., 115 Smithfield street, Pittsburgh, Pa.
